The committee approved proposals 8570, 8678, and 7674.

The committee returned proposals 9023, 9026, 9027, and 9028 for revision. We ask the authors to be more clear and specific with respect to their "...plan to achieve the minimum of 20 pages, of which 10 are evaluated with recommendations for improvements in subsequent current course assignment."

The committee returned proposal 8795 for revision. The author needs to show how learning outcomes for the course are aligned with at least three of the learning outcomes for Goal Area 7 and at least two of the learning outcomes for Goal 8. The author also needs to provide a list of strategies used to assess the General Education outcomes (see field in CDS specific to the assessment of student achievement).

The committee sent back an appeal related to the use of a course to meet the diverse cultures requirement.
